# The perfect blend of modern family living and classic elegance

Nestled on one of Grey Lynn's most desirable streets, this beautifully renovated single level villa embodies the perfect blend of modern family living and classic elegance.

With its eye-catching square-front façade and low-maintenance landscaping, this charming home features four spacious bedrooms, stylish bathrooms and distinct living areas, all thoughtfully designed for today's lifestyle.

The high-stud ceilings and polished timber floors create a sophisticated atmosphere, while the bright interiors bathe in the warmth of the west-facing orientation, ideal for enjoying breathtaking Auckland sunsets.

The gourmet kitchen is a culinary haven, outfitted with the premium Nobili Mania Kitchen Mixer taking centre stage. The open plan living area

flows seamlessly to an outdoor retreat featuring a sparkling pool and sunlit patio perfect for relaxation and entertainment.

The two stylish bathrooms ooze opulence with an Italian twist featuring Flaminia Ceramics and Zucchetti tapware that merge modern convenience with architectural design.

Located conveniently between the vibrant atmosphere of Ponsonby Road and the recreational amenities of Grey Lynn Park, this villa provides easy access to a lively local scene filled with exceptional restaurants, cocktail bars, and boutique shops. Recent developments are further enhancing the area, making it a prestigious address and a highly sought-after lifestyle in one of the country's most dynamic suburbs.

## THE HOME OF BATH COUTURE

Styled by nature. Perfected by hand. The Apaiser story starts with award-winning bathware, proudly Australian owned. Driven by a dream to transform the bathroom, founder Belinda Try introduced the world to her brand Apaiser™.

Each bathware piece is individually sculpted by master craftsmen. The Apaiser signature offering of Bath Couture® embodies complete customisation for those who dare to be different, inspiring a new generation of absolute luxury. The evolution of the bathroom is complete with Apaiser Bath Couture.

The groundbreaking ApaiserMARBLE® proves to be one of the highest performing bathroom materials in the marketplace. Born of the elements, distilled by nature, strengthened by man and inspired by design, ApaiserMARBLE® is a luxurious high performing marble, enriched with the purity of Australian minerals.

While retaining the sensual touch, luxurious feel and health benefits of marble, ApaiserMARBLE® delivers increased strength, high performance and lower weight, whilst achieving global technical standards, independently verified.

## Un viaggio all'interno della materia

## A journey within the material

Alice continues on the path of design enhancement. At Cersaie 2024, Alice maintained the same attention to detail and material selection, with the exhibition space designed by the àr-o studio celebrating the enthusiasm and innovation that define the Alice brand.

# alice

Blending volumes, shapes, and meanings, **Idilla** explores the Roman past with a contemporary gaze, using thick edges to renew the ceramic tradition.

The Milanese space located in the Brera district told the story of a region steeped in the scent of plaster. Molds and shapes, matrices and casts become protagonists and integral parts of an experiential journey that unfolds as a narrative, where elements of nature engage with the senses to reveal the true essence of the material.

# Parco Flaminia

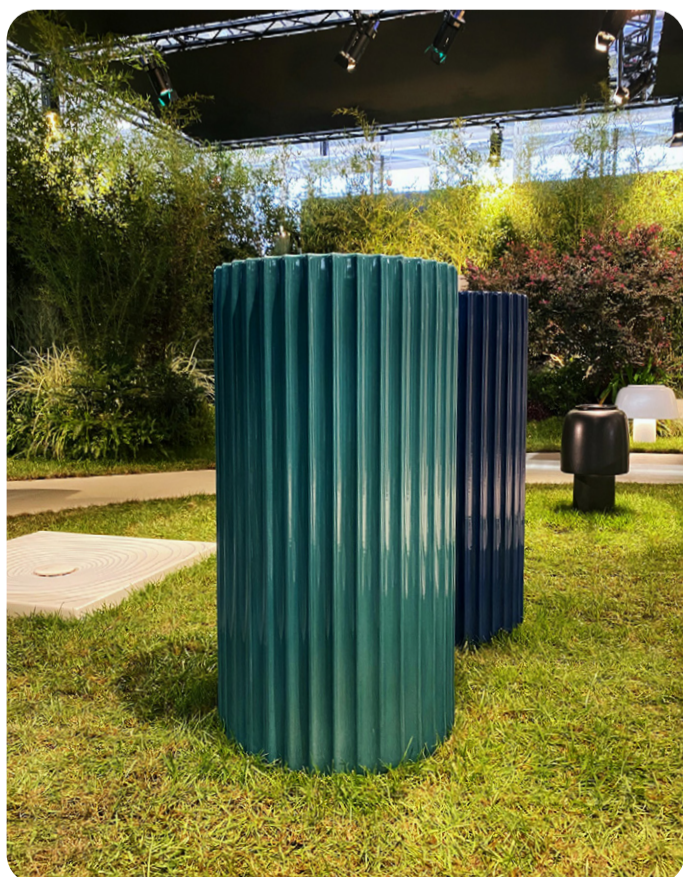

Two large portals made of coloured ceramic shards from the company's production scrap welcomed visitors to the Flaminia Cersaie exhibit, and, as in Gaudi's Barcelona surreal garden project, illustrate the possibility of transforming elements deemed of little value into a work of art. Inside Parco Flaminia the brand's creations are displayed as if floating on the grass, grouped by colour families.

## → FLAMINIA.

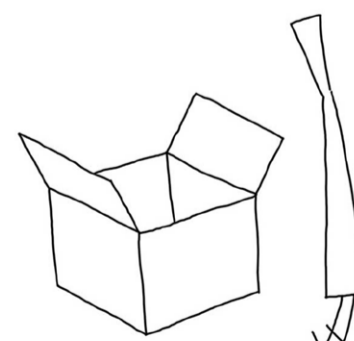

The **Play** family has expanded with the introduction of washbasins offered in three different sizes and in rectangular and square shapes. These washbasins enhance the combination of square lines and rounded corners.

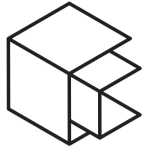

Among the products making their debut, the exhibition unveiled the new **Monosettecento** project, designed by Giulio Cappellini, which joins the **Settecento** washbasin line, introducing a monolithic element of significant proportions that calls to mind the architectural details of the ancient world.

On show was the surprising **Box** washbasin, inspired by the unboxing experience. Stretching to the limit the concept of the parallelogram, Japanese designer Oki Sato from the Nendo studio has worked with slim profiles and sharp lines that extend beyond the outline of the box to take on the appearance of two light, poetic wings.

THE  
EXPRESSION  
OF WATER

**Taki** is an installation designed by Nendo, a multidisciplinary studio headed by Japanese designer Oki Sato.

Taki is comprised of three suspended elements of different sizes, arranged in a slightly staggered configuration that transforms them into the small terraces of an evocative waterfall. "Taki, as a visual metaphor, evokes the movement, the expression of water as seen in nature, where it collects in a pond, or in a lake, flows, and resumes its journey", explains Oki Sato who has design studios in Milan and Tokyo.
